

RIGHT HOME MANAGEMENT

Raising The Bar in property asset management

What areas does Right Home Cover?

We cover Kent, East Sussex and London

What are our Methods?

Right Homes approach to lettings and property management is quite different to those of our competitors, this stems largely from our background in investing in property and experience owning rental portfolios.

We understand all of our clients' circumstances vary greatly, for example you may be an 'accidental landlord', where the rental of your property is through circumstance as opposed to planned, or you may have specifically chosen the route of additional property ownership to high scaled portfolios.

Therefore, we tailor our service accordingly to the guidance each client requires.

Renting a property holds high regard to us as Asset Management, your property is one of your most valuable investments from which you are seeking the correct returns, as well as capital preservation to appreciation.

We attach equal importance to all the tenants, to ensure they are content, and the home is maintained. We have regular contact with tenants including inspections to ensure any issues are resolved, and therefore not developing into larger more costly issues. A happy tenant will stay longer reducing void periods and ensuring the asset is well cared for. ■

Amy Kempton,
Property Manager

Why was Right Home Management Launched?
From our own experience of owning rental portfolios, we found there was a lack of reliable and personable managing agents that you could trust with your most valuable asset.

Within the marketplace we could not source a dedicated agent to fully handle the daily stresses of managing rental properties, as well as maintaining the correct level of income from your asset.

From this, Right Home was Born.

Why should a landlord consider Right Home Management?

1. Fully Hands off investment and peace of mind of your portfolio.
2. Right Home will guide you through all the legal obligations and legislation required with renting a property.
3. Right Homes highly effective property management team saves your valuable time and money in the long term, preventing issues inexperienced landlords may face.
4. Managing property is a time consuming around the clock commitment, with the number of resources required and regular legislation changes, Right Home is best placed to assist you.
